

# WoodTainer XXL

## Volume-optimised rail container for transporting bulk cargo

- ◆ New, efficient and flexible transportation system for moisture-insensitive bulk products (e.g. woodchips, recycled paper, biomass, waste material, etc.)
- ◆ Optimized, international operation with 60ft-platform wagons
- ◆ In-house transportation and handling by means of a forklift or a reach stacker
- ◆ Unloading the container by rotation – unloading cycle time approx. 40 sec

### Technical data of the container:

- ◆ Container volume: 46m<sup>3</sup>
- ◆ Total maximum weight of container: 23t
- ◆ Tare: 2.9t, height: CT-profile C45
- ◆ Length 20ft, width 2,550/2,900mm

### Technical data of the forklift:

- ◆ Heavy duty forklift
- ◆ Lifting height: 4m
- ◆ Endless rotating device

## Possibilities of application (example: woodchips, biomass):

**In the station:** loading of biomass with wheel loader (e.g. in terminals)

**Transportation by rail:** Quick shuttle traffics

**Unloading technique:** stationary or mobile unloading of the container with and without HardTop.

**Container fleet:** 2.400 containers in use, 1.000.000 unloadings. Arctic winter tested.
