## 12. YouTube

- 12.1 Our website uses plug-ins of the website YouTube. The operator of the pages is YouTube, LLC, 901 Cherry Ave., San Bruno, CA 94066, USA. We use YouTube in enhanced data privacy mode. According to YouTube, this mode means that YouTube does not save any information about the visitors on this website until they have seen the video. However, the transfer of data to YouTube partners is not necessarily excluded by the enhanced data privacy mode. For instance, irrespective of whether you watch a video, YouTube establishes a link to the Google DoubleClick network. As soon as you start a YouTube video on our website, a connection is established to the YouTube servers. In the process, the YouTube server is informed which of our pages you have visited. If you are logged in to your YouTube account, you make it possible for YouTube to directly assign your surfing behaviour to your personal profile. You can prevent this by logging out of your YouTube account.
- 12.2 In addition, YouTube can save various cookies on your terminal after a video has started. With the aid of these cookies, YouTube can obtain information about visitors to our website. This information is used, among other things, to record video statistics, to improve user friendliness and to prevent attempts at fraud. The cookies remain on your terminal until you delete them.
- 12.3 After starting a YouTube video, further data processing procedures may be initiated over which we do not have any influence.
- 12.4 The usage of YouTube is done in the interest of presenting our services in an appealing way. This constitutes a legitimate interest pursuant to Art. 6 Par. 1 Letter f GDPR.

## 13. Social media plug-ins

- 13.1 Plug-ins of social media (e.g. Facebook, YouTube, Instagram, LinkedIn) are used on our pages.
- 13.2 You can usually recognise the plug-ins by the respective social media logos. In order to guarantee the data privacy on our website, we only use these plug-ins in connection with the so-called "Shariff" solution. This application prevents plug-ins integrated on our website already transmitting data to the respective provider when the page is accessed for the first time.
- 13.3 Only when you activate the respective plug-in by clicking on the respective icon will a direct connection to the server of the provider be established (consent pursuant to Art. 6 Par. 1 Letter a GDPR). As soon as you activate the plug-in, the respective provider will receive the information that you have visited our site with your IP address. If you are logged into your respective social media account (e.g. Facebook) at the same time, the respective provider can assign the visit to our pages to your user account.
- 13.4 The activation of the plug-in constitutes consent pursuant to Art. 6 Par. 1 Letter a GDPR. You can revoke this consent at any time with effect for the future.
- 13.5 In addition, we have a legitimate interest in the greatest possible visibility in social media. This constitutes a legitimate interest with the meaning of Art. 6 Par. 1 Letter f GDPR.
- 13.6 The following plugins are used on our website:
- 13.6.1 **Facebook**  
 Plug-ins of the social network Facebook, 1601 South California Avenue, Palo Alto, CA 94304, USA are integrated on our pages. You can recognise the Facebook plug-ins by the Facebook logo or the "Like" button on our page. An overview of the Facebook plug-ins can be found here: <http://developers.facebook.com/docs/plugins/> When you visit our pages, a direct connection is established between your browser and the Facebook server via the plug-in. Facebook thus obtains information that you have visited our site with your IP address. If you click on the Facebook "Like" button whilst you are logged in to your Facebook account, you can link the content of our pages on your Facebook profile. Facebook can thus assign the visit to our pages to your user account. We point out that as the provider of the pages we do not have any knowledge of the content of the data transmitted or their usage by Facebook. Further information on this can be found in the data privacy notice of Facebook at <https://de-de.facebook.com/policy.php>. If you do not want Facebook to be able to assign your visit to our pages to your Facebook user account, please log out of your Facebook user account.
